

Miscellaneous Health Issues and Vitälzým Testimonials

PARASITES

I've had parasites for the past 18 years. I went to many physicians and tried many things; sometimes they only made my situation worse. "Vitälzým is the one thing that the Lord has sent me to make it through the most unbearable period in my life." I feel better, I have a new energy level, my inflammation is a lot better, I'm not as hungry and I've passed more parasites since I've been taking Vitälzým. There are times, because of my medication that I have very little strength. When I take Vitälzým, a couple of days later, I'm right back where I was. I love this product!!

RANGE OF MOTION

"I had been working with a physical therapist to increase range in motion in my arm when my sports trainer, Marv, recommended I take 3 Vitälzým 3 times per day. After about 2 months of taking Vitälzým, I have an increased range of motion in my arm. Even my physical therapist noticed it. Vitälzým has worked for me and I would recommend it"

SJOGRENS SYNDROME

Vitälzým has helped my Sjogrens Syndrome condition be corrected. My mouth is no longer dry. My joint pains have stopped and I have an increase in energy.

TMJ/JAW JOINT

I have suffered with TMJ disease (Temporo-Mandibular Joint or Jaw Joint) for several years. I have had laser surgery, physical therapy, and acupuncture with no relief. I have been unable to sleep and eat at times because of the pain. Two months ago I started taking Vitälzým and this week I have no pain and feel better than I have in years.

Thank you so much for your product.

VARICOSE VEINS

I started using Vitälzȳm because of my varicose veins. I am taking 9 capsules 3 times per day. As a result of using Vitälzȳm, the swelling and scar tissue have vanished. I have also experienced many other unexpected results such as my ability to breath. I have always worried about my lungs because of my breathing patterns and Vitälzȳm improved my breathing 100% no questions asked. Other results include better vision as well as my skin color has gone from a pale to a more normal, healthier looking skin tone.
